"Backward American"—Bunk!  
 All the proponents of socialism, communism and the other what-have-you isms argue that their systems offer the "common man" greater security and material benefits. As Al Smith used to say, let's look at the record.

England has gone in for socialism in a big way. And what has happened? Once a great coal exporting nation, she can now hardly produce enough for her own needs. Her electric power industry has gone downhill and rates are higher than under private ownership. Her whole socialized economy is as a tree in a storm.

Russia, of course, has gone whole hog in its version of a "people's government." To own or control all productive activity, and only a miserable minimum of consumer goods is produced. Her retail stores—all of which belong to the state—are stocked with only a few necessities and even these are strictly rationed. Prices, measured by average earning power, are far higher than in this country.

"Backward America," on the other hand, still clings to representative government and a capitalist economy. The "tragic" results of this are seen on every hand—the most efficient industries on earth, the highest standards of living in the world in spite of inflation, more leisure and opportunity for all retail stores groaning with every kind of commodity, and a competitive system which has to please the people or go out of business—"take it or leave it" system. The socialists have a sad story. It just doesn't make sense. And yet they are working here to have government monopolies supplant private enterprise. Will we fall for it?

## News Of Belle Glade Negro Schools

By Negroes—For Negroes

**Belle Glade Elementary**  
 An active member of our PTA, as well as one of the Glade's most prominent citizens, was recently presented the highest honor any Scout in the Boy Scout Movement may receive. On last Friday, October 22, at the annual banquet given by the Gulf Stream Council, Mr. Taylor was presented with the Silver Beaver Award, and became the second Negro to receive the honor. The PTA and the Scout Master of Troop 68, Belle Glade, for the past several years, and is very active in all civic enterprises. The PTA and pupils of Belle Glade Elementary School take this opportunity to extend to Mr. Taylor and Troop 68 our hearty congratulations.

At the recent meeting of the PTA, the question of the frequent youth in our community came up for quite a bit of discussion. It was decided that there is an urgent need for recreational facilities for youth as well as adults in the community, and the PTA accepted the responsibility as one of its projects for the year. An appeal was made for more parents to

attend the meetings and help in the solution of problems facing the organization. The Safety Patrol group had their second meeting on Friday. The club presented two two-act skits on safety. The members of the club are due much praise for demonstrating clearly the importance of observing safety at home, at play, at school, and on the streets.

**Everglades Vocational News**  
 The Everglades Vocational High School "Bobcats" of Belle Glade, Florida, defeated the team on October 1st, against Melbourne. They defeated this opponent by a score of 19 to 0. The "Bobcats" played their second game of the season against Carver High School of Miami and took to them 25 to 0. Next they journeyed to Daytona Beach, Thursday night, October 21st, and lost a hard-fought game to this opposing team 19 to 12.

Friday afternoon, October 29, the "Bobcats" will play one of the toughest teams in the district, Dillard High School of Ft. Lauderdale. Many of the students, including the Pep Squad and Drill Team, will accompany our team on this trip. Plans are being made to take four buses to West Palm

Beach. The trip is being made for the purpose of having a good time and to see the sights of the city. The trip is being made for the purpose of having a good time and to see the sights of the city. The trip is being made for the purpose of having a good time and to see the sights of the city.

The "Bobcats" will try to bring to us a victory after again playing the Maroon Devils. We shall look forward to our homecoming against Carver High School of Delray on November 11. **Thursday Evening Suppers Discontinued**  
 Owing to the fact of school being in session and the active farming season approaching, the special suppers which have preceded the weekly Fellowship ship meeting services at the Everglades Presbyterian Church on Thursday night, have been discontinued until further notice of their resumption.

**Local Chapter Boys Are Staging Skits And Vegetable Projects**  
 "Bob" Davidson, who heads the Future Farmers of America program in the Belle Glade Schools, has a class this year which reaches well toward the hundred mark, and has gotten them well started on their year's work program. Cattle raising is the prime program of the club this year, and already several of the members have purchased blooded stock from the Duran ranch at Brightlight and the Sugarland ranch at Clewiston, representing several breed of cattle of the leading show Florida strains. The Florida Production Credit Association, and the Palm Beach Cattlemen's Association are giving assistance to the boys in their projects. Fritz Stein, Joe Stevens, Kenneth Bass and Kenneth Harris are boys who have financial interest in the stock, and their animals are reported as making fine progress, and are being brought to show purposes.

The Chapter has planted 30

acres of bean for revenue purposes, and some of the boys have their own bean patches and other vegetables.

**Called to Memphis By Sister's Death**

The deceased is survived by her mother, Mrs. A. C. Barnes, and one sister, Mrs. Kate Kellogg, of Hollywood, Cal., and two brothers, Harry Barnes, of Belle Glade and Chester Barnes, of Memphis. ### GIRL SCOUT MOVIE SHOWING AT THEATRE

The week of October 31st to November 6th is National Girl Scout Week in recognition of the contribution to American Life given by Juliette Gordon Low, who formed the first girl scout troop in the United States March 12th, 1912. Today there is a vast Girl Scout sisterhood of a million and a half girls and leaders—a living evidence of Mrs. Low's vision and an honor to her memory.

The anniversary of her birth, October 31st, is fittingly the opening day of Girl Scout Week. On this day each troop with adults will attend a church in its community.

During this commemorative week the moving picture "Your Date with the Future" starring Celeste Holm will be shown at the Hugo Theatre.

### Special Programs Given At Community Church By Guest Speakers

The morning services at the Community Methodist Church last Sunday morning, were in charge of the Bethany class, as a part of the Week of Prayer observance, and was of a most interesting nature, with Miss Sarah Digs, Mrs. J. She proved herself a very competent speaker and brought an unusual message. Her appearance on future occasions will be most welcomed.

The WPCS on Thursday night, conducted World Day of Prayer service, with Mrs. John M. Gledhill, of the Spiritual Life Department, presiding. This program was also a very helpful and inspiring one.

On next Sunday morning, the Men's Class, will present the worship program of the day, and will have as guest speaker, Dr. Paul M. receives the letter of authorization from the city. An ordinance was passed restricting the sale of intoxicating beverages out side of the zones set up by the ordinance within the city limits. The city law was passed on the second reading, and the ordinance will be in effect on the 11th day of November.

Mr. C. A. Hill appeared before the commission and asked that he be granted a beer license permitting him to sell beer at a barbecue stand which is to be erected on the Bill Pierce property on N. 1st St.

It was brought out by Mayor Harris, that in order to issue a beer license in that region an amendment to the new beverage zoning law would have to be made. He also stated that all property owners in that region who would be affected, would have to give their permission by signing a petition.

It was decided that all commissioners should see the proposed location and then a special meeting will be called by the Mayor for the purpose of deciding whether the beverage ordinance should be amended.

Women Anglers Bring In Nice Strips of Bass

Mr. and Mrs. Cliff Livingston, on Sunday, held themselves to the big lake for some fishing sport, and when they returned to the dock they had the game limit of eight bass, several of them weighing in excess of five pounds. This pretty net makes them the champions for the week.

Mrs. Lou Betzner can also show winning pool or ball, for on Monday afternoon, she returned with six sizeable bass, which she placed before "Lou" to clean for the evening meal.

## Increased Telephone Rates are Necessary

*Here's why!*

Southern Bell's rates in Florida are not sufficient to meet today's costs and assure this Company's ability to render good telephone service.

Therefore, we have been compelled to file new rates with the Florida Railroad and Public Utilities Commission. The new rates are only such as are necessary to furnish you good, dependable service.

Today's telephone rates are the emergency rates determined on the basis of 1946 conditions. Since then there have been substantial increases in costs, including employee wage increases and continued increases in costs other than wages.

Facilities in each of the next several years will also be extremely heavy. Continuation of this work, however, depends upon earnings being such that necessary new capital can be attracted to the business. Even without today's heavy demands for new telephones, additional new capital would still be required for the added facilities necessary to maintain and improve service for present customers.

Earnings in Florida are far too low to attract the capital needed in providing service to Floridians.

**Telephone Service Still An Outstanding Bargain**

At the increased rates your telephone will still be one of today's best bargains. The new rates will still be low in comparison with the heavy increases in our costs. They will be low in comparison with the increase in other items you buy.

While manufacturers, farmers and business generally have re-priced their products as costs increased, the Telephone Company as a regulated utility has been providing service at rates that average only slightly higher than those in effect in the 1930s.

These new rates are required to give good and improved service. Rates that are less than sufficient can result only in poor service. The people of the state want good telephone service and that is what we want to furnish.

**Adequate Service Requires Adequate Rates**

Continued high-quality service requires telephone rates that meet today's costs and provide reasonable earnings for those who make the service possible by investing their savings in the business. It is the investors' dollars that pay for facilities through which service is kept modern, constantly improved and enlarged.

In our program to meet the full post-war telephone needs in Florida, we have constructed huge amounts of additional equipment—poles, wire, cable, switching equipment, buildings, and all the other items necessary to provide service. This construction in 1948 alone will amount to about \$25,000,000. Requirements for new

**OBSERVATIONS**  
(Continued from Page 1)  
with Senator Spessard Holland as his guide for information, found time to say "This park is a wonderful place, and when the people of the United States learn of its attractiveness they will all want to visit it". Florida does have some mighty fine attractions for tourists interests.

Negroes who do most of the street work in Belle Glade, working out violations fines in police courts, are sort of getting wise, that it does not pay them to get in the clutches of the law, if they have to pay out with labor on the streets. For several weeks the labor gang under guard Barlow, have been few in number, slackening down the pressing work. One negro made a remark that he wished that the gang was smaller, if he was one released.

Judge George Todder raises many acres of cane, 80 this season, but not for the production of sugar. Instead he cuts it and sells it to truckers who carry the stalks to market and sell it, for sucking and chewing purposes for the saccharine content. The Judge makes for more profit by selling it by the stock, than if he had it ground up for sugar. He reports his crop is not so good this year, rain and flood.

**FIRE LOSSES**

must be classed as such because they were made to such places as Chosen, the Airport and three to South Bay. The value of the property within the city limits actually involved in fire is estimated at \$64,025.00. This should be added an estimated \$80,805.00.

It's a thin, crystal-clear, quick-chill, sterilized bottle filled with lush, ripe flavor and delightful aroma—that's the real, the only Grapette. Rich in delectable, sparkling with mellow carbonation. Ask for it by name. Say:

for fixtures and furnishings. This would bring the property value at \$484,830.00. The fire loss of property and furnishings is estimated to be approximately \$42,945.00.

In handling the 83 alarms and the 25 drills held during the same period, the following equipment was used: 6,400 ft. of booster line hose, 2,550 ft. of 1½ in. leader line hose, 7,600 ft. of 2½ in. main line hose, 240 ft. of ladders and 11 extinguishers. In addition to a large amount of small tools and appliances.

From the above it is easy to see why this department is recommending the installation of more and larger mains and the installation of quite a number of additional hydrants. After 17 years as a volunteer chief, and receiving volunteer pay at the same rate as other firemen, Chief Will was voted \$50.00 per month pay, by the city commission which met with the approval of all citizens present at that meeting.

The old American LaFrance pumper which has been responsible for the saving of the city on more than one occasion, finally gave up the ghost during this year and is being replaced by a new truck which will soon be added to Belle Glade's fire defenses.

which it is the sponsor. The troop is now planning on erecting a camp site on the islands, where practical outdoor training can be received. At the meeting on November 3rd, the Belle Glade troops and their Scoutmaster will be dinner guests of the Lions, with a program for their entertainment. Members will be responsible for some one scout's dinner.

A resolution was presented by Herman Close, and adopted, setting on foot a plan to see that Florida is represented with an excellent product exhibit at the National Convention in New York in 1949. Ralph Blanton, of RDB, will give aid to this proposition.

A combined meeting of the clubs in the Zone, honoring the ladies, was held at the Sugarland Auditorium, in Clewiston, on Oct. 21st, with 130 members and guests present. The dinner was served by the mothers of the Girls Scouts of Clewiston. Dr. Claude Hicks, of Lake Worth gave the address of the evening, and the officers of the four clubs were introduced, as well as their wives. The Sugarland orchestra provided music for the after dinner dance.

International President Briggs, is booked to visit the Florida clubs in November, and the date for the West Palm Beach visit, to which district clubs will be invited, will be held at the George Washington Hotel on November 16th, in the evening. As he will be coming through Belle Glade enroute to the eastward. The club was asked by Scout Executives to get busy in behalf of the Senior scout Troop

the local club may act as an escort from this city to his destination.

### Masons Present Their District Deputy With A Baby Shower

Some 75 members of the Masonic Lodges of the 22nd district gathered at the hall of Gulf Stream Lodge at Lake Worth, recently, for the October session of the Master and Warden's Association, and the session proved profitable and enjoyable for those attending. Ralph Jewell, of West Palm Beach, who is instructor for the district, with a picked team gave instruction in one of the degrees for a class of candidates, which proved to be an interesting innovation. Past Grand Master Frank Brown, of Miami, was the guest speaker of the occasion.

District Deputy Irvin Heugland, is soon to be a "papa", so secretly the craftsmen had collected a supply of various typed articles suitable for such an event, and gave him a real shower, which sure knocked him off his usual aplomb. A regular circus was enjoyed out of this bit of by-play.

The attendants had opportunity of enjoying a fine buffet lunch. The next meeting of the Association will be held at Delray on November 19th.

### Bratley's Purchase The Borchardt Home On The South Chosen Road

The fine home of Mr. and Mrs. E. H. Borchardt, on South Chosen Road, was purchased by Mr. and Mrs. Hugh J. Bratley, and later they plan to erect there a sizeable modern cottage for their own occupancy, but until that time will continue to remain at their present home on Avenue C.

The Borchardt home is located in one of the desirable residential sections west of the city, and had considerable acreage, a portion in a large lawn and other parts with citrus. It is understandable that the Borchardt family will continue to reside in West Palm Beach, where Mrs. Borchardt finds it personally more healthy for her, but Gene will remain in action with his local farming and industrial project.

Assistant County Agricultural Agent, H. L. Spicer, met with boys from the sixth and seventh grades last week to discuss the organization of a 4-H club. Projects outlined by Mr. Spicer were poultry and raising and vegetable growing. Twelve boys, seven from the 7th grade and 5 from the 6th grade, evinced interest in the 4-H program. Eighth grade boys not included since they will be in the Belle Glade High School next year and eligible to membership in the Future Farmers of America and their agricultural program, he said.

Seventy-six members and visitors responded to roll call from the eleven clubs in the county. The organization of a new club, The Morrison Homes Club, was announced by Miss Sara Horton, home demonstration agent. County Commissioner Lake Lyle explained the Mass Survey of Palm Beach County to discover hidden cases of T.B. and other chest ailments. The goal is to take an X-ray picture of every person in Palm Beach County 15 years of age and older. Five X-ray machines will be used in the survey 3 of which will remain West Palm Beach from October 23 through November 28, one on Clematis St. near Dixie Streets, one in the Health Department Building for whites and one for colored. Mr. Lyle pointed out that if every person in the state was X-rayed the dread white plague could soon be wiped out entirely in the state.

The recommendation of the Executive Board to hold election of officers in all local clubs in November instead of September in order that the new officers take office in January as do the county officers and start the new yearly program at that time was accepted and passed.

A nominating committee consisting of Mrs. A. W. Lynch of West Gate, Mrs. H. S. Dawley of West Palm Beach and Mrs. A. W. Linfield of Lake Worth was appointed to present a slate of officers at the January meeting which is to be held in Belle Glade.

## Rev. Herman Damm to Continue as Presbyterian Minister

At a recent session of the Elders of the Everglades Presbyterian Church, reports were received, which showed that the church is making most successful progress. The church has renewed a contract with Rev. Herman Damm, of Clewiston, to continue his ministry as these relations have been mutually agreeable and beneficial.

The church Bible School in its first year of organization has been building up so that the enrollment is now approaching the 100 mark with an average attendance of over 80 each Sunday. The building eventually intended for the pastor's parsonage, but now being used for church activities, is proving too small, so the session is considering an addition to it, or perhaps going forward with the erection of the church plan which has been under contemplation since the church was organized.

## Work Progresses on Local Building Projects

Structural steel work forms for the new Kuhn Building on Avenue A have begun to arrive, so Contractor Hill is again working on the structure. Work on the new Chert Building is progressing daily. Work on the new Bay Lane and Johnson Buildings are also advancing toward completion.

## Rardin Desires a Little Court House At the Prison Farm

Owing to the growing business in the Glades area, and the long distance required to drive to West Palm Beach to conduct official county business, Commissioner Rardin, has started a movement to secure a "little court house center" in the Glades, which he would have located on State Prison farm lands. He has presented the idea to the Prison Board at its session, and there will be left for hopeful preparation. By such a "center", much business would be performed at less expenditures of time and travel.

Commissioner Rardin is also urging that County Highway 1 be improved by a main travel artery, which for the second time in two years has been flooded by flood waters, be placed in good travel condition at once.
